

Call for Papers

The joint symposium will be focused on the theme “**Photonics and Education in Measurement Science**” and will provide a forum for the exchange of the latest research findings and innovations related to this theme. Original contributions relating to this theme are welcomed.

Paper Publication

All accepted and presented papers at the conference are planned to be published in the **SPIE Digital Library**. In addition, it is planned that chosen authors can extend and modify their papers and that these papers could then be considered for publication in a **SPIE Journal**.

Scientific Topics

Topics include, but are not limited to, the following:

- Measurement, Instrumentation and Photonics for Education & Training
- Applied Photonics for Science and Engineering in Industry, Biology, Medicine, Environment and Administration
- Sensor & System Characterization for Machine Vision and Image Processing
- Photonic Sensors and Systems for Multimodal Sensing
- Photonics, Machine Vision and Image Processing in UV, VIS, NIR, SWIR and LWIR Wavelength Range including also Thermal and THz
- Software & Processing of Multivariate and Multidimensional Data as well as Deep Learning Approaches
- Development of Models, Methods and Algorithms in Photonics, Machine Vision and Image Processing

Further Information

It is a condition of publication that each paper is presented at the conference.

Each accepted paper must be registered by an author before the early-bird registration deadline to avoid withdrawal from the conference proceedings and technical program.

Conference Timeline

- 01.10.2018 Open Pre-Registration & Paper submission
- 15.02.2019 Submission of papers
- 29.03.2019 Notification of acceptance
- 08.04.2019 End of early-bird registration
- 03.05.2019 Full paper submission
- 28.06.2019 Notification of full paper reviews
- 19.07.2019 Final full paper submission

Paper Submission

Authors are invited to submit papers of **min. 4 pages (max. 10 pages)** according to the guidelines and information of **SPIE – The international society for optics and photonics**.

Each paper will go through **peer review by at least two subject experts**.

Templates and guidelines:

<http://spie.org/manuscripts>

The deadline for paper submission is **15.02.2019**.

SPIE online submission:

<http://spie.org/submissions/submit>

Further information for paper submission can be found [here](#).

Conference Fee

- 650 EUR Participant Full
- 550 EUR Participant Full (Early Bird) before 08.04.2019
- 300 EUR Participant - Student
- 150 EUR Accompanying person*

The conference fee includes the scientific and social program, food and beverages, the certificate of attendance as well as a print version of the conference proceedings.

* Accompanying person can attend the social program
